

International Ventures Expands One-Stop-Shop for Steel Building Solutions

International Ventures, LLC (IV) announced it is now an American Buildings Company (ABC) Authorized builder. This partnership adds another option to make customers' expansion or new construction plans a reality. ABC is an IAS AC472-accredited manufacturer of metal building systems.

“By joining this network our customers can meet the Buy American requirement and the American and Steel Requirement,” said Allison Kern, Vice President of Marketing and Administration. “Our steady, reliable supply of steel keeps our production schedules on time and on budget.”

International Ventures is a global provider of metal-building construction consulting to general contractors, developers and building owners. As an Authorized Builder we offer our customers the most versatile and cost-effective building solutions.
